

January 18, 2016

Mr. Jim Elsner  
Imperial Crane Services, Inc.  
9735 Industrial Drive  
Bridgeview, IL 60455  
Ph: (708) 598-3700

My name is Michael McMahon and I am the senior estimator for Omega Demolition responsible for the heavy highway division. I have worked with Imperial Crane over the course of my career and wanted to acknowledge the high standards of performance and professionalism exhibited by Imperial Crane and its employees over the course of the past five years I have been working for Omega Demolition Corp. When I first started here 5 years ago, Omega was using several different crane companies for work in the Chicagoland market and now Imperial is the only company we use on our local projects.

Imperial Crane understands that it takes highly qualified personnel to maintain good relationships and thereby has an exceptional staff that stays involved and accessible throughout a project. The entire staff is very professional, safety conscious, and knowledgeable. Jay Mooncotch, your V.P. of sales and marketing has consistently been committed to the success of our projects from bidding through project completion. Jay, along with his team ensure we always get competitive pricing and quick turn around on quotes. From personally meeting onsite to verify crane access, radius, and proper crane size, to being present for critical lifts day or night someone from Imperial is always available.

The company's fleet is in perfect working condition, and has been able to accommodate last minute schedule changes. The right operator seems to be matched with the projects, from picking beams down from a bridge to removing a water tower; Imperial has the right operator for the job.

It is truly hard to find honest, dedicated, hardworking individuals willing to make sure each and every one of your projects are completed safely, within budget, and on schedule. Imperial Crane is truly a company that Omega Demolition will want to continue to work with in the future.

Sincerely Yours,

*Mike McMahon*
