More Than Four Decades of Safety, Service, Quality

IMPERIAL Crane
SERVICES, INC.
Since 1969
For over four decades, Imperial Crane Services, Inc. has been predominantly committed to the manufacturing and heavy industries. We have also systematically managed to command a formidable position in the ever-growing construction and infrastructure sector.

Our commitment to excellence is the most integral component in our daily operations. This means that we are dedicated to the highest standards in safety, service and quality. From the receptionist to the foreman, that commitment shows through our remarkable customer service, our state-of-the-art technology and the safest equipment and procedures anywhere in the world. Our greatest resource is our people and their dedication is what has made Imperial Crane a trailblazer in this industry.

By constantly updating our equipment and procedures, we aim to be the safest crane service company in the world. For years, we have been the recipient of numerous safety awards from accredited organizations, such as American Subcontractors Association, Three Rivers Manufacturer’s Association and Specialized Crane and Rigging Association. We ensure that with our state-of-the-art equipment, our employees are the most skilled and highly trained in the industry. This has allowed Imperial Crane to consistently rise above the competition.

B.J. Bohne, CEO.

Our commitment to excellence is the most integral component in our daily operations.
Safety is integrated into every aspect of our company. Our safety philosophy integrates both in-plant and out-of-plant training. Our entire team is dedicated to our “talk safety, live safety” culture, which encourages all supervisors and employees to apply prevention and safety to every aspect of their daily tasks.

As we proactively create and review lift plans, perform daily sight inspections, yearly third-party inspections, and adhere to the strictest OSHA and ANSI regulations, we are able to maintain a safe environment for our customers and workforce.

Imperial Crane is fully aligned with Three Rivers Manufacturer’s Association and serves as managing partner of CITGO Safety Alliance. We keep our employees current on training and all the relevant certifications, ensuring that we provide our customers with the most efficient and safe equipment, as we regularly update our fleet.

Imperial used two 300 ton LTM 1250 cranes to reposition Chicago Harbor’s four 160,000 pound lock gates.

230 ton Link-Belt 298 crawler crane used at Fowler Ridge Wind Site to sort and set the bottom section of wind turbine columns.

Surpassing 6 years without a lost time accident with an EMR of .57
From our humble beginnings as a one-crane operation, we have diligently grown our rental and sales divisions to create a worldwide corporation.

Imperial Crane is a full-service crane company.

There is not a job that is too small or too large for Imperial Crane. Regardless of the scope and scale of the project, we are committed to accommodating your every need and enabling you to complete it safely, efficiently and economically. We take pride in our ability to provide services that fully compliment our crane rental business.

Our team is always available to assist our esteemed global clientele, providing accurate and timely information. Our mutual commitment to each other’s success gives customers confidence in our work.

Our full-service sales department’s in-house estimators use the most advanced technology to provide prompt crane sizing, quotes and permit expediting. They are always available to offer alternative lifting methods and equipment, along with cost-cutting suggestions.

Our field estimators make job site visits, prepare sight diagrams, and meet with your project design team and structural engineers. They are available to consult with your field staff in order to provide the right equipment needed for any project. Our clients know that by choosing Imperial Crane, they will have a first-class experience that is certain to exceed their needs and expectations.
Sales
Since 1992, Imperial Crane Sales, a division of Imperial Crane Services, Inc., has been selling quality cranes…

- Whether you are looking for new cranes or used equipment, Imperial Crane Sales has the quality machines that will meet all your lifting needs.
- Whether you are looking for a steady source of supply or a one-time purchase, we are your preferred choice 100% of the time. If for any reason we don’t stock what you want, we are certain to find it for you.

We proudly stand by our prominence as one of the largest crane companies in the world.

Rental
If you don’t wish to buy, we have that covered as well. Imperial Crane will assist you in leasing or acquiring rent-to-own equipment. Furthermore, we are well able and available to help you turn your equipment into your own profit center.

Imperial Crane is one of the nation’s largest mobile crane rental services and hire companies, totaling hundreds of cranes from 6 ton to 600 ton capacity.

Imperial Crane is more than cranes. We also specialize in aerial work platforms, telescopic forklifts, construction hoists and boom trucks.

A Division of Imperial Crane Services, Inc.

After almost 40 years of successfully applying our inimitable turnkey service model to the lifting and rigging needs of the petro-chemical industry giants like CITGO, British Petroleum, Conoco Phillips and NAES Power Contractors, Imperial Crane Services has expanded its footprint with the formation of Imperial Power Services.

Imperial Power Services has the capability of servicing well beyond basic lifting and rigging needs. We boast a proprietary operational evolution from start to finish. By managing the multi-disciplined craft required for the execution of any job, we ensure adherence to our outstanding safety culture and work quality that has made Imperial Crane an industry leader.

From pre-planning to lift-plan development and the safe execution of each lift, Imperial Power Services exemplifies outstanding managed-task excellence.

Imperial Power Services has completed prototypical managed-task jobs in the nuclear industry. We operate proficiently in switchyard settings, working within standard minimum approach distances with qualified electrical workers. Our ability to customize safe work practices to adhere to the strict procedures of nuclear facilities or switchyards has enabled us to complete tasks in a safe, efficient and timely manner to the satisfaction of our customers.

Donald C. Cook Nuclear Power

Donald C. Cook Nuclear Plant is a dual-unit nuclear power plant generating over two thousand megawatts of electricity, enough to meet the residential, commercial and industrial electric power needs of a city the size of Detroit. Imperial Power Services is a crane provider for Donald C. Cook Nuclear Plant. We supply operators, riggers and lift planners, and also the necessary oversight required to complete their outage objectives. We control critical facets of the lifting and rigging evolutions, resulting in efficient and, above all, the safe execution of required tasks.
Celebrating 45 years
We are proud to be leaders and pledge to continue our commitment to excellence, accepting the demand of today and the challenge of tomorrow.

John A. Bohne

1969

Our commitment to excellence is the most integral component in our daily operations. This means that we are dedicated to the highest standards in safety, service and quality to our customers. Our greatest resource is our people and their dedication is what has made Imperial Crane a trailblazer in the industry.
